

INTERNATIONAL HEALTHCARE RECRUITERS

EMERGENCY DEPARTMENT NURSING CLINICAL NURSING SKILLS SELF ASSESSMENT FORM

Name: _____ Date: _____

Please indicate level of skill and experience in all listed areas.

LEVELS OF PROFICIENCY: 0 = Never Done, 1 = Perform with Supervision, 2 = Perform Independently

	0	1	2		0	1	2
NEUROLOGIC				Venipuncture for Blood Specimen			
Neurological Assessment				IV Using Butterfly Angio/Intracath			
Assisting with Lumbar Puncture				INTRAVENOUS THERAPY			
ICP Monitoring				CVP			
Assembly of Equipment				Hyperalimentation			
Care of Patient				Preparation & Use of:			
Hyper / Hypo Thermia				Lidocaine Drip			
RESPIRATORY				Dopamine Drip			
Auscultation of Lung Sounds				Nitride Drip			
Suctioning / Oralpharyngeal				Dobutrex Drip			
Tracheostomy Tubes				Bretylol Drip			
Endotracheal Tubes				Pronestyl Drip			
Oxygen Equipment: Masks				Nitroglycerine Drip			
Cannula				CARE OF PATIENTS WITH:			
Obtain Arterial Blood Gas:				A.I.D.S.			
Via Arterial Line				C.O.P.D.			
Via arterial Puncture				ARDS			
Intubation (assisting with)				DTs			
Extubation				Overdose			
Weaning				Burns			
Tracheostomies: Shiley				Shock			
Portex				Acute: MI			
RESPIRATORY				CHF			
Tracheostomies Fenestrated				Angina			
Other:				GI Bleeding			
Chest Tubes: Water Seal				Cardiac / Respiratory Arrest			
3 Bottle Suction				Other: (Please specify)			
Pleurevac							

INTERNATIONAL HEALTHCARE RECRUITERS

Emergency Nursing Page 2	0	1	2		0	1	2
Buret Assembly				Hypothermia set-up			
Gemini Infusion Pump Assembly and Programming				Pulse Oximeter – Use and reading			
Oxygen Equipment Assembly and Initiation:				Non – Invasive BP Measurement (Dynemap)			
Nasal Cannula				Venipuncture, perform			
Face Mask				IV Insertion			
Mist Mask				Visual Acuity Assessment			
Venturi Mask				Eye Irrigation w/ Morgan Lane			
Breath Sound Identification				Obtain 12 Lead ECG			
Nasotracheal Suction				Defibrillation, Set-up and Assist			
Artificial Airway Suction				A-Line, Set-up and Assist			
Use Of Level I Rapid Infuser				Spinal Immobilization			
Glucose Monitor Quality Control and Patient Tests				Chest Tube, Set-up and Assist with Insertion			
Chest Physical Therapy				Splint Application			
CVL Dressing				Shoulder Immobilizer			
Pail Filter Assembly				Intubation, Set-up and Assist			
Nasogastric Tube Insertion				TB Mask, Fit Test			
Nasogastric Tube Irrigation				External Pacemaker, Application and Operation			
Feeding Tube Bolus Administration				Peak Flow Measurement			
Kangaroo Feeding Pump Assembly and Programming				Hemoglobin Testing with Hemocure Photometer			
Cardiac Monitor Initiation							
Doppler Use and Reading							

I CERTIFY THE ABOVE INFORMATION TO BE TRUE AND ACCURATE.
